INDEX

ATP as energy source for sperm motility, 326.
Abnormalities in chick embryos treated with normal sera and homologous antisera, 239.
Absorption spectrum of Urechis eggs, 136.
Abstracts of papers presented at the Marine Biological Laboratory, 319
Accessory electric organs of Narcine, 126.
Acclimation of Amphiprion to symbiosis with Stoichactis, 397.
Acetylcholine, effects of on mollusc tissues, 471.
Acid, hydrochloric, gustatory response of cockroach to, 490.
Acid accumulation in Desmarestia, 101.
Action of insulin on cells and protoplasm, 459.
Action potentials, nerve, of cockroach, 490.
Activity of thyroid in salamanders, 411.
Adrenaline, effects of on mollusc tissues, 471.
Adult mosquitoes, gamma radiation of, 536.
Aedes adults and eggs, gamma irradiation of, 536.
Age in relation to form-stability of ciliates, 384.
Aggregates, subnuclear, in protozoan cells, 269.
Alga, marine, sulfuric acid in, 101.
Alga-salamander embryo symbiosis, 483.
ALLEN, R. D. Polarization optical studies on amebae, 327.
Alloxan injection of toadfish, 357.
AMATNIEK, E. *See* R. MATHEWSON, 126; M. V. L. BENNETT, 331.
Ameba, effects of heparin on, 459.
Amino acid uptake of marine invertebrates, 341.
Amino acids in Physalia nematocysts, 219.
Ammonium bases, quaternary, in coelenterates, 551.
Amphibia, effects of goitrogens on thyroids of, 411.
Amphibian embryo, localization of antigens in, 201.
Amphibian embryos, symbiosis of with alga, 483.
Amphiprion, symbiosis of with sea anemone, 397.
Amylose and amylopectin fractions, 320.
Anatomy, salt and water, of crabs, 180.
Anatomy of gull nasal gland, 162.
Anatomy of Narcine electric organs, 126.
Anatomy of toadfish swimbladder, 172.
ANDERSON, J. M., AND J. C. JOHANN. Some aspects of reproductive biology in the fresh-water triclad turbellarian, Cura, 375.
Anemone, sea, symbiosis of with fish, 397.
Annual Report of the Marine Biological Laboratory, 1.
Anolis, male, responses of to changes in day-length, 427.
Antennal gland, role of in osmotic regulation in crabs, 180.
Antherea, use of for assay of juvenile hormone activity, 530.
Anthopleura, association of with Amphiprion, 397.
Anthozoa, nematocyst toxins of, 551.
Antibacterial activity of Limulus blood, 341.
Antibacterial activity of Phascolosoma blood, 343.
Antifertilizin of Mellita, 74.
Antigens, localization of in frog embryo, 201.
Antisera, homologous, effect of on chick embryo, 239.
Antisera to frog brain, lens and cattle lens, 201.
Aqueous humor of dogfish, 335.
Arachnid, neuromuscular transmission in, 209.
Arbacia eggs, effects of insulin on, 459.
ARMSTRONG, P. B. Retinal development and phototactic responses in developing Ameiurus embryos, 332.
Arthropod chemoreceptors, 114.
Arthropod neuromuscular transmission, 209.
Ascidian, regeneration of buds in, 147.
ASHTON, F. T. *See* L. V. Heilbrunn, 459.
Assay of juvenile hormone activity, 530.
Asteroid coelomic corpuscles, 53.
Astropecten coelomic corpuscles, 53.
AUCLAIR, W. Methyl green "vital staining" in Arbacia eggs, 342.
AUCLAIR, W., AND D. MARSLAND. Form-stability of ciliates in relation to pressure and temperature, 384.
AUCLAIR, W. *See* D. MARSLAND, 356; J. PADAWER, 359.
Axoplasm, lobster, physical properties of, 328.

BACTERIA, photosynthetic sulfur, enrichment studies on, 343.
BANG, F. B., AND S. M. KRASSNER. Antibacterial activity of Phascolosoma blood, 343.
BANG, F. B. *See* M. V. SHIRODKAR, 341.
